**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I like my Sonic.net internet provider service and I have been with them since 2009. They save me a lot of time and money by being able to shop, pay bills, compare prices and have telephone services all at one low price. They have been keeping this service going consistently well and I haven't had any problems with the service, it's always reliable.

I can see they are laying down their fiber cable all over the place and someday I will upgrade to it when I can. It's been a great entertainment value when it come to listening to music and watching video from all over the world at any time of day.

I wish they didn't have to add all those taxes, surcharges and fees because one third of the monthly cost of the service is paying those charges.
